Message from MD

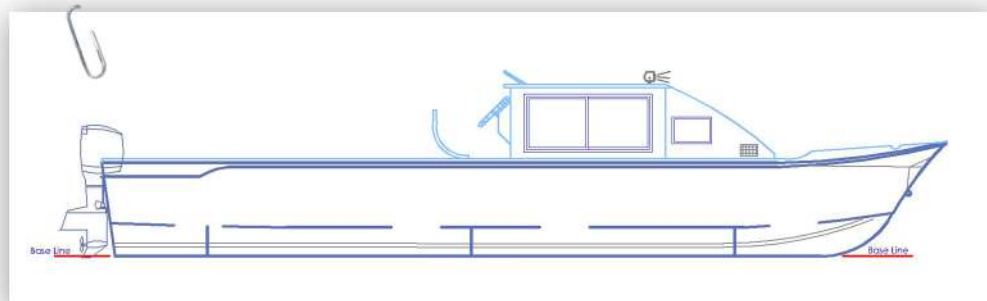

B F International Limited provides marine products and services, and have grown to be the expert in this sector over the years. We serve customers with outmost professionalism providing them with pleasant experience. Our proven boat designs and imported renowned products improve the productivity and efficiency of our customers.

Our goal is to build trust and long lasting relationships with every client by providing them with reliable products and quality service. We hold firm to our principles of honesty, integrity and attention to details. Our staffs are distinguished by their functional and technical expertise combined with their hands-on experience, thus ensuring that our clients receive the most effective and professional service. Hence, a successful partnership with us is guaranteed.

"We promise to build you affordable, unique and state of the art boats that will meet and exceed your expectations!"

MIR FAKHRUL ISLAM

Managing Director

About Us

BF was founded in 1982 by Mir Fakhru Islam, its journey started with repairing and modifying speed boats, passenger watercrafts, servicing of Outboard Motors (OBM) and spare parts sale. Since 1985, the principle activity of the company in association with Karnaphuli Group is of an Exclusive Marketing Agent and Sole Importer in Bangladesh of Yamaha OBM and Water Bikes (Waverunner). Besides, we also import and supply full range of Yamaha Marine products such as Lubricant, Genuine Spare Parts and Accessories. BF later commenced vessel building operations with a vision to build high quality fiberglass boats and Steel Body Water Vessels for the local market. The company expanded its portfolio by becoming Exclusive Marketing Agent for Porta Bote (portable folding boats) and Sea Eagle (inflatable boats, kayaks and paddleboards) of USA.

As experts in fiberglass boat manufacturing, BF prides for being an affordable solution provider for all marine products and services. We are involved in every stage upon client's requirement, offering functional and technical support. Our success in manufacturing and supplying boats to the various government bodies has become the springboard for ongoing growth of the BF boats in Bangladesh. We are also partnered with international boat builders from various countries and import different type of high-quality fiberglass and aluminium body boats. Over the past years, BF has been leading the Fiberglass Boat market in Bangladesh. In the coming years, our company is focused towards serving overseas client and meeting their quality standards, thus appointed an European Marine Expert to provide consultation for upgrading the factory and its facilities. We have experience of engaging Bureau Veritas (France) classification society to approve design and drawings, carry out inspection during production phase and certify boat after completion of production.

In the past, we have operated a government approved design house involving design and drafting of ships. It has brought a fresh and innovative approach to consulting services, acting as liaison between our client's requirement and satisfaction. Furthermore, we provided various other imported supplies such as Moto Guzzi (Italy) V35 Police Motorbikes for Bangladesh Police; Earthmoving Equipment such as Bulldozers and Pay Loaders from BEML (India) for Chittagong Hill-Tracts. BF also imported and successfully installed Microwave Communication Device such as HFRT Set, Repeater, VHF Base Set, Walkie-Talkie of Standard, Motorola and Furuno from Japan and Malaysia for Bangladesh Forest Department.

Our Vision

Our vision is to excel in every aspect of business keeping integrity and ethics at the core of our services. Exceptional functional and technical expertise coupled with extensive industry knowledge makes BF the ideal choice to be your one stop shop for marine products and services.

Our Expertise

Our extensive skills include all aspects of implementation and operation in boat selection, manufacturing, commissioning at port of operation and after sale services. BF is well known for its substantial product base among fiberglass boat builder countrywide. Over the past years, BF has become the country's leading manufacturer of Fibreglass Boats.

Our knowledgeable marine experts have experience working with wide range of Fiberglass boats and outboard motors. We will provide the highest standards of service and can also visit boat onsite for inspection and service. Moreover, our outboard motor technicians team are trained from Yamaha Technical Academy and are qualified to carry out a complete service of the engine.

Production Facility

The boat manufacturing facility, Marine Fibreglass is located at Fatullah, Narayanganj; which is only approximately 12 km from Dhaka city centre. The purpose of this built enclosed facility is to provide simultaneous manufacturing of boats varying in sizes with round the clock monitoring and surveillance.

The self-owned facility offers nearly 15,000 square-feet of manufacturing and material handling floor space with dedicated spaces for the following:

- Engines and accessories stock
- Raw materials storage area
- Materials mixing and cutting area
- Welding and fabrication area
- OBM installation and testing
- Repair workshop facilities
- On-site office and staff accommodation

The design of our boats are approved by BUET. The following are some of the popular models, passenger water taxi, coastal patrol boat, high speed support boat and small size ferry boat.

Product & Technical Training

BF provides tailored Product, Boat Operator and Mechanics training to boost the customers confidence and knowledge on our products. We believe that our customers will be in a better position to rely on trained professionals and technicians who possess an unquestionable level of expertise. These programs educate the participants on our range of marine products, and provide the most effective maintenance and troubleshooting methodology in order to boost their product performance and longevity. We are also confident that our programs are the basis for the safety of passengers and crews while at sea or river.

We have carried out these training programs for the government organisations who are our valued clients. We also hold training programs every year for private and government customers, the program covers both theoretical and practical sessions.
